Durable denim Machinist Apron made in USA with flip bib pocket, grommets and string ties

Our Self-Locking "Jungere" Tap Extension requires no set screws or collets; only the Drift provided can dislodge the Extension from the Tap and it is guaranteed to exceed the torque strength of any standard Tap it is designed to hold. The straight through design is perfect for close quarter and long tapping projects. Hand and machine applications. See our full line of machine and pipe npt or product video at TapExtension.com

Sorry no substitute.
Not good with any other offer.
While supplies last.
Freight not included.
